```java
package implementation;

public class Trcatch {

    public static void main(String args[]) {

        int a=10, b=0,c;
        try {
            c=a/b;
        }
        catch(Exception e) {
            System.out.println("Exception caught");
        }
    }
}
```
